

To my Parents on their 50th Wedding Anniversary

A Simple Time

For two to live as one you know, requires many skills  
Your thoughts forgiving and your love, to bring you through much ill  
You've raised a family, helped them so, they know your love so real  
This love we have we pass along, and hope that you might feel  
That on a day so rich and rare, to show all that you can  
Be all you can for fifty years, regardless of the plan  
We want to tell you of our love, our hopes and prayers to you  
Your cherished feelings, love you show, are truly shown by few  
To keep you close a gentle hug, is more than just a hope  
A kiss to you from all of us, give us time to cope  
To Mom and Dad we have to say, we love with all our heart  
That any moment any time, you know it's hard to part  
Your fifty years have shown this son, how true a heart might be  
And shown a different light to life, believe you've been the key
